FACTORY FLOOR JEWELS
A DISTINCTIVE URBAN JEWELLERY BRAND

*Hello, I'm Kate and I'm
obsessed by factories
- I grew up in them,
as my Dad was an
engineer.*

*I love their smell &
sounds and I take my
materials & inspiration
from them*

All of the Factory Floor Jewels range make perfect gifts and the branded packaging reflects this, however many of pieces are sold to people treating themselves to a new piece from the collection - with lots of repeat customers.

Most importantly, this unique handmade jewellery compliments any outfit or event, the beautiful mix of carefully selected materials including silver, brass, copper, zinc, perspex & steel will co-ordinate with any outfit or fashion style in a timeless way. Many of the pieces work well from day into night.

It's easy to become a stockist and join a range of galleries and shops including Tate Modern, Moko, Kings Road Fashions and Present Indicative: just email your order and we'll send you a confirmation email and invoice.

I design and make my collections from a studio in Liverpool and am able to fulfill orders of all sizes within a short lead-time.

I look forward to working with you

Kate

I am a Factory Girl with a 40 year
fascination with industrial buildings
& the creations that come from them

As a child I often spent Saturday mornings
with my Dad in his office above the factory
floor - he was one of the last, great,
packaging engineers

Many of the objects used to create the
Factory Floor Jewels collections are
discovered on the floors of trade suppliers
& manufacturers, instrument technicians &
luthiers in the cities in which I live & work

Pieces include simple basics,
& some more unique pieces
that reimagine the materials I find

ENJOY
(& tell the story)

BECOME A STOCKIST TODAY:

- Wholesale:** Email your order to
sales@factoryfloorjewels.com
- Min. Order:** £150 (first order) £100 (subsequent)
- Prices:** S/S21 prices relevant til end Aug 2021
RRP is wholesale x 2.4
- Payment:** I accept bank transfer or Paypal. All jewellery
is made to order and must be paid for in full
prior to dispatch
- Shipping:** All UK packages sent by Special Delivery.
Orders over £250 are carriage paid, below this
postage and packaging will be charged at cost.
Overseas orders will be sent tracked and
charged at cost and customer is responsible
for any import tax
- Lead Time:** Every order is lovingly handmade and I start
work on your order as soon as it is confirmed
and paid for.

I aim to have your pieces made, polished and
packed for dispatch within 14-21 days (often
sooner)

Couture Ranges can take a little longer to
make, but I will always discuss this with you
before confirming your order.

NEW

BRONZE

This new design is based on my best selling SWARF range and introduces
a new material for me - bronze filings taken from a local sculpture foundry.

These striking sterling silver and bronze stud earrings add glamour to any
outfit. At 6mm diameter these studs are not too overpowering for daytime
wear, but they really come into their own for that little black dress moment.

The delicate bronze filings are set in a stunningly clear resin and each
handmade pair is as unique as the person that wears them.

Bronze & Silver Stud Earring

BNZ-E-ST-STS

£17.50 (£42)

Materials: Sterling silver, bronze and resin
Codes ending STS are in Sterling Silver (Prices in brackets are suggested retail price)

CONCRETE

Completely new for Top Drawer S/S 2021 this new silver and concrete collection is sure to be a hit. It's super shiny and at first glance it's the blackest of blacks, but as you take a closer look you realise it has greys and browns in it too. The collection has a number of classic pieces in it which we know will become staples in your customers wardrobes.

Concrete Pendant

CONC-P-R £10.42 (£25)
CONC-P-R-STS £17.50 (£42)

Concrete Ring

MARINA - UNISEX

As my work is influenced by my memories of my father's engineering career and as I source my materials from many male dominated workshops, it has long been an ambition of mine to launch a unisex range that would be of interest to customers of all genders.

Top Drawer SS20 saw the launch of this range which its within my Marina collection - these items are presented in branded cloth bags reminiscent of the engineering workshop environment

Materials: leather, steel, aluminium and copper
(Prices in brackets are suggested retail price)

IRIDESCENT

Incredibly hard to photograph!

This iridescent perspex looks clear in some lights, blue in others and takes on the hues and tones of its surroundings.

This limited edition range is made from waste material from a project by a neighbouring design business.

Materials: Standard range - silver plate, brass and resin
Codes ending STS are in Sterling Silver (Prices in brackets are suggested retail price)

SWARF

So sparkly! Taking tiny fragments of brass that are literally collected from the Factory Floor, these are then set in resin and combined with silver plate to create a wonderful contrast.

The Swarf collection includes a pendant, statement ring, ear studs and dangle earrings. For Him there are matching Swarf Cufflinks.

The sparkle created by the unique mix of materials make this a popular choice for evening wear and yet simple enough to be workwear too.

Materials: Standard range - silver plate, brass and resin
Codes ending STS are in Sterling Silver (Prices in brackets are suggested retail price)

NUTS

The Nuts collection is wonderfully classic, and complements everyone's skin and hair tones - making it one of our most popular collections.

It is effortless to wear and the perfect choice for wearing on a daily basis - looking just as good at work as it does at night. It's the go-to gift selection.

The extensive Nuts collection by Factory Floor Jewels includes a pendant, a necklace, a choice of earrings including a new sterling silver hoop.

CIRCLIPS

Delicate and Classic! Using engineering components usually seen as strong and functional to create something delicate and beautiful is a trademark Factory Floor Jewels technique.

The Factory Floor Jewels Circlips collection includes a pendant, large and small earrings and a striking bracelet.

The simple elegance of this black and silver range makes it a classic day to night-time choice.

COPPER DROPS

There's something about the texture of these gorgeous copper drops that reminds me of chocolate or butter!

They are so beautifully understated and the contrast with the silver makes them a constant hit.

The new Copper Drops collection by Factory Floor Jewels includes a choice of pendants, and a pair of striking yet delicate earrings

STEEL RODS

A real icon of the Factory Floor Jewels brand, this collection combines the patina of re-used steel with clean tones of sterling silver - always a head turner!

Each piece is handcrafted and the composition of the rods chosen & welded together is unique. I don't over polish them as I believe the patina tells the story of their heritage as industrial components.

The steel rods are on a stainless steel back plate and hung on a handmade Sterling Silver neck cuff, attached to a handmade Sterling Silver adjustable ring or pierced and hung from Sterling Silver ear wires.

Materials: Standard range - sterling silver, steel and stainless steel
(Prices in brackets are suggested retail price)

WHEELS

This reclaimed wheel is striking and will always get you stopped in the street - another instantly recognisable Factory Floor Jewels statement piece.

Each piece is unique due to the finish of the wheel and age of the piece used. The wheel has been lacquered to preserve its story and the neck cuff is available as either silver plated or sterling silver.
